CONTRACTORS NEWSFLASH

Construction Sites & Roadways

May 20, 2024

Please be reminded that construction sites shall be maintained as to not create any nuisances or hazardous conditions in the neighborhood.

- Any scrap or leftover building material are to be kept in a dumpster.
- Dumpsters shall be emptied on a regular basis and will not be overflowing.
- All trash is to be contained when left on the construction site.

We have received an increase in our residents' concerns with construction debris with an emphasis on nails/screws in the roadways.

- Roadway are to be kept clean from dirt, mud or other debris to include nails or other items that may puncture tires. Please secure your construction material on vehicles safely to prevent overflow of nails, screws or any other hazardous materials to the roadways.

Thank you for your continued effort to keeping Palm Coast beautiful and a great place to live.
