

CONTRACTOR NEWSFLASH  
New Inspection Request App

August 22, 2025

We are excited to launch an Inspection Request App to help you manage your inspections quick and easy from your phone.

Options will allow you to enter a permit # and schedule inspections OR, you may use (or create) your online permitting account which will provide access to all permits linked to your contractor when you log into the app.

When using the login option, you will have the opportunity to bookmark your projects as favorites and access only your assigned projects.

Link for download and directions for use can be found by visiting our website [www.palmcoast.gov/building](http://www.palmcoast.gov/building) and scrolling down to Documents & Information. There you will see 'Inspection Scheduling App' at the top of the list.
