## Virtual AC Changeout Inspection on Demand

August 13, 2024

### **To make the request:**

1. Request virtual inspection - Call Alphanette @386-986-7982 or Chris @ 386-286-2054.
2. Allow 15 minutes to prep. Call back via FaceTime or Google Meet
3. Onsite - have permit and AHRI available.

### **The virtual inspection will consist of the following items:**

#### Exterior

4. Show street view of the structure where 911 address is visible.
5. Show unit level and anchored to pad with locking caps and UV protected insulation for refrigerant line.
6. Show ac unit label with model # and max overcurrent visible, whip attached to structure, disconnect accessible, and condensate draining 12" from foundation.

#### Interior at Electric Panel

7. Show AH (heat) breaker size and AC (condenser) breaker size. Ensure breakers are compatible with panel.
8. If unit is in the attic, a notice is required at the panel indicating location.

#### Interior at air handler

9. Show AH connected. Show air handler label with model # and heat strips and maximum overcurrent protection.

10. Show duct connections to unit, float switch or secondary drain, pan, if applicable, insulation on condensate lines, if applicable, and sealant at penetrations in ceiling.

**INSPECTION COMPLETE**
